## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 27-43 and 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 91/05014 to Sutherland et al.

3. The rejection set forth in the paper mailed 8/10/05 under 35 USC 103 is deemed proper and is herein repeated.

4. Applicants arguments filed 8/3/07 have been fully considered but have been found not persuasive. Applicants argue that the claims are “substantially free of mineral oil and the art teaches the incorporation of the excluded oil. Applicants point to page 10 of Sutherland where the incorporation of mineral oils is disclosed. The examiner maintains that the art does not require the incorporation of “mineral oil” but rather calls for an extender liquid. The extender liquid can be a mineral oil but it is not required to be a mineral oil. The art suggests extender liquids that are not seen to fall within the scope of the excluded mineral oil, such as polybutene and polypropene. One would be motivated to use a non-mineral extender liquid when formulating the gel compositions of Sutherland given the suggestion of non-mineral extender liquids.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
